Neurosurgical Society  
of Alabama

# MEMBERSHIP matters

**Y**our membership is important to NSA  
and we encourage you to **join us in 2023!**

Membership means joining your colleagues in the only specialty society in Alabama that works to protect the neurosurgical profession and patients' access to quality care.

The Neurosurgical Society of Alabama was organized in 1974 to advance the interest in neurological surgery and allied subjects and to act as a representative for its members at the discretion of the membership and for these purposes:

- Foster a feeling of fraternal spirit among those members of the medical profession and closely integrated scientific professions of the state of Alabama whose interests are chiefly concerned with neurological surgery or any of the allied fields which the membership decides.
- Stimulate interest within the state or surrounding area and within the medical professions at large in neurological surgery.
- Advance knowledge in the above respective fields through the medium of either clinical or preclinical endeavors.
- Facilitate the dissemination of knowledge among members of the Society concerning recent advances in any of the allied fields by appropriate means.

**In order for us to fulfill these purposes, we need your membership!**

We encourage you to join your colleagues across the state and support NSA. Our partnership with the Medical Association of the State of Alabama

allows us to offer quality CME programs, membership recruitment, communications, board management and legislative support to our members.

**NSA 2023 Conference
